

TUE MINH NGUYEN

DATA ANALYST

Hanoi, Vietnam | tuenguyen1508@gmail.com | 0923 128 205 | [LinkedIn](#) | [GitHub](#) | [Portfolio Website](#)

Fresh Business Informatics Graduate with experience across finance, FMCG and education, skilled in Excel, Power BI, SQL, Python and R. Experienced in data cleaning, transformation, dashboard development, KPI reporting, data modelling, trend analysis and stakeholder reporting. Strong background in accounting and finance, with hands-on experience using Jira and Confluence to manage project documentation, track requirements and support cross-functional collaboration.

TECHNICAL SKILLS

- **BI & Analytics:** Power BI (DAX, Data Modelling, Power Query)
- **Data Analysis:** SQL (PostgreSQL, SQL Server, MySQL), Excel (VBA), Python, R
- **Accounting:** MYOB, Xero
- **Microsoft Office:** Word, PowerPoint
- **AI Tools:** Claude Code, Cursor, GitHub Copilot, OpenAI API (prompt engineering, API integration)

WORK EXPERIENCE

[MentorPlus](#) | **Data Analyst** | *Sydney (Remote), May 2024 - Jun 2025*

- Partnered with the Finance Manager to define commercial KPIs, analyse retention and profitability performance, and prioritise reporting to support revenue forecasting and budget allocation.
- Built financial and operational dashboards in Power BI tracking churn, customer segments, plan performance and retention metrics, enabling variance analysis and performance monitoring across key revenue drivers.
- Cleaned and transformed raw datasets using Python, Excel and Power Query, applying data validation, reconciliation checks and calculated fields to support accurate financial reporting.
- Managed competing reporting priorities and delivered quality outcomes within required timeframes using Jira and Confluence.
- Translated complex financial data and analysis into clear, actionable insights for non-financial stakeholders, contributing to **~10%** improvement in retention and **~8 - 10%** increase in campaign response rates.

[Tailored Accounts](#) | **Accountant** | *Canberra (Onsite), Jun 2025 - Aug 2026*

- Managed financial records and analysis for a diverse portfolio of clients across healthcare, not-for-profit, hospitality and small business sectors, using Xero, MYOB and advanced Excel workbooks.
- Prepared Australian regulatory and compliance lodgements (BAS, IAS, FBT, income tax) and financial statements (P&L, balance sheet, cash flow) using Excel workpapers, reconciliations, tax schedules and supporting calculations with strong attention to data accuracy.
- Managed end-to-end payroll administration (pay runs, superannuation, STP, EOFY), maintaining accurate financial records and resolving discrepancies through systematic troubleshooting and reconciliation.
- Communicated financial information to clients across industries, translating complex compliance requirements into clear, plain-language guidance.
- Identified and implemented process improvements including structured workflows, checklists and step-by-step reconciliation procedures for staff onboarding, contributing to **100%** on-time lodgements, nearly **0%** ATO follow-up and **98%** client satisfaction.

[Mizzuna Cafe](#) | **Assistant Manager** | *Canberra (Onsite), Aug 2023 - May 2024*

- Supported the Shift Supervisor by coordinating baristas and front-of-house staff using real-time demand cues (queue length, ticket volume, peak-hour patterns), keeping peak service flowing and reducing bottlenecks.
- Helped cut peak-time wait times by **10 - 15%** and reduce order errors by **5 - 8%** through smoother coordination and clearer handovers.

PROJECTS

Financial Modelling from Scratch | Excel | [LINK](#)

- Built Excel-based financial planning models delivering a validated 13-week cash flow forecast and interactive KPI dashboard (budgets, scenarios, cost breakdowns).

AR & Cash Flow Monitoring System | Excel, Python, Power Query, DAX, Power BI | [LINK](#)

- Designed an end-to-end accounts receivable monitoring pipeline with client ledger tracking, collection forecasting, DAX measures and a four-page Power BI dashboard.

Full-Cycle Data Warehouse | Microsoft SQL Server | [LINK](#)

- Built a SQL Server data warehouse, integrating CRM/ERP data with an end-to-end ETL pipeline, data-quality checks, and a star schema for analytics and insights.

EDUCATION

University of Canberra | Jul 2023 - May 2026 | Bachelor of Business Informatics (Data Science) | **GPA: 6.71/7.0**

- **Capstone:** Secure, scalable web-based assessment platform to replace Qualtrics (SQL, Python, Docker, AWS, Jira, Confluence) | [LINK](#)
- **Certification:** Microsoft Power BI PL-300 (Data Analyst Associate) | Currently studying towards CFA Level 1
- **Dean's List Award** every semester (Sem 2 2023 - Sem 1 2026)
