

MINNIE NGUYEN

DATA ANALYST | BI DEVELOPER

Sydney, Australia | minnienguyen1508@gmail.com | 0478 574 499 | [LinkedIn](#) | [Github](#) | [Power BI Portfolio](#)

Data Analyst with 2+ years of experience across finance, FMCG and education, skilled in Excel, Power BI, SQL, Python and R. Experienced in data cleaning, transformation, dashboard development, KPI reporting, data modelling, trend analysis and stakeholder reporting. Strong background in accounting and finance, with hands-on experience using Jira and Confluence to manage project documentation, track requirements and support cross-functional collaboration.

TECHNICAL SKILLS

- BI & Analytics:** Power BI (DAX, Data Modelling, Power Query)
- Data Analysis:** SQL (PostgreSQL, SQL Server, MySQL), Excel (VBA), Python, R
- Accounting:** Myob, Xero

WORK EXPERIENCE

[Tailored Accounts](#) | Accountant | Canberra (Onsite), Jun 2025 - Present

- Managed financial data and client records for medical, not-for-profit, business and hospitality clients, using Xero, MYOB, Excel, Outlook, Microsoft Teams & Word and Google Drive to support senior accountants and internal teams.
- Prepared Australian tax and compliance lodgements, including BAS, IAS, FBT and income tax, as well as financial statements such as profit & loss, balance sheet and cash flow reports, using Excel workpapers, reconciliations, tax schedules and supporting calculations.
- Managed invoicing, billing and payroll administration, including pay runs, superannuation, STP and EOFY processes, while maintaining accurate financial records and communicating with clients through Outlook and Teams.
- Trained and onboarded new staff using structured workflows, checklists, templates and step-by-step lodgement/reconciliation procedures, contributing to **100%** on-time lodgements, nearly **0%** ATO follow-up and **98%** client satisfaction.

[MentorMe](#) | Data Analyst | Sydney (Remote), May 2024 - Jun 2025

- Partnered with the Finance Manager to define commercial KPIs, analyse retention performance, and prioritise reporting tasks to support revenue, customer value and profitability analysis.
- Cleaned and transformed raw JSON data into structured datasets using Python, Excel and Power Query, applying data validation, reconciliation checks and calculated fields to support accurate financial reporting.
- Built Power BI dashboards to track churn, customer segments, plan performance, usage trends and retention metrics, enabling variance analysis and performance monitoring across key revenue drivers.
- Delivered customer and revenue insights that contributed to a **~10%** improvement in retention and **~8–10%** increase in campaign response rates, supporting better forecasting, budget allocation and commercial decision-making.

[Mizzuna Cafe](#) | Assistant Manager | Canberra (Onsite), Aug 2023 - May 2024

- Supported the Shift Supervisor by coordinating baristas and front-of-house staff using **real-time demand cues** (queue length, ticket volume, peak-hour patterns), keeping peak service flowing and reducing bottlenecks.
- Collaborated with the team to prioritise drink/food tickets and deliver **structured handovers**, improving order accuracy and shortening customer wait times.
- Helped cut **peak-time wait times by 10 - 15%** and reduce **order errors by 5 - 8%** through smoother coordination and clearer handovers.

EDUCATION

University of Canberra | Jul 2023 - May 2026

Bachelor of Business Informatics | Major: Data Science

- Capstone Project: A secure and scalable web-based assessment platform developed for the Centre for Advanced Studies in Education (CASE) to digitise cognitive and spatial reasoning assessments (SQL, Python, HTML/CSS/JavaScript, Docker, AWS) | [LINK](#)
- Currently studying towards CFA Level 1 (Finance) & Microsoft Power BI PL-300 Certificate.

Academic Achievements

- GPA: 6.75/7.0**
- Dean's List Award - Semester 2, 2023, Semester 1,2 2024, Semester 1, 2 2025

PROJECTS

MM Pet Growth Snapshot (FMCG) | Excel, Power Query, DAX, Power BI | [LINK](#)

- Used **Excel and Power Query** to transform and clean data, built **DAX measures** and an **interactive Power BI Sales & Product dashboard** (Sydney hierarchy deep-dive), presented insights with financial recommendations.

Full-Cycle Data Warehouse | Microsoft SQL Server | [LINK](#)

- Built a **SQL Server** data warehouse, integrating CRM/ERP data with an **end-to-end ETL pipeline**, data-quality checks, and a star schema for analytics and insights.

Financial Modelling from Scratch | Excel | [LINK](#)

- Built **Excel-based** financial planning models, delivering a validated **13-week cash flow forecast** and an **interactive KPI dashboard** (budgets, scenarios, cost breakdowns, long-term value) using clean, well-structured data and error checks.
